- In pairs, compare learning in the past to learning nowadays.
- Describe your school.

Reading

Imagine If....

Learning is one of the most important needs of every individual. Can you **imagine** what happens if we do not learn? Without learning, we will be **ignorant** and undeveloped. Science and technology develop people's minds. A high-educated society is a great one.

Grandfathers say that learning in the past was not as easy as it is today. They had few opportunities to continue their education to higher levels. To get to school or university, sometimes they had to go on foot because of the lack of **transportation**. Therefore, many people of their age couldn't read and they are called **illiterate**. At that time, the teacher was the most respected person and the only one who provided information and knowledge to the public. So, students relied heavily on their teachers. However, it becomes a fact that learning is easier today. Times have changed and everything gets easier. Now most students, teachers and parents have mobile phones. through which they can get information. On the other hand, schools today still have the same **structure** as that of the previous **decades**; students follow a standard **schedule**; they start in the morning at half past seven or at eight o'clock, end in the afternoon at two or four o'clock.

Key Words

imagine : think

ignorant: not educated.

transportation: means of carrying people or goods from one place to another

illiterate: not knowing how to read or write

structure: a careful plan

decade: a period of ten years

schedule: timetable

True Friends

Judi is a very popular girl at school. She is clever, fun and gets on well with everyone. From an early age she had made an **effort** to be kind and friendly to others. She was such a busy girl, with so many friends, that she hardly got a chance to spend time with **individual** friends. However, she felt very lucky; no other girl had so many friends at school and in the neighborhood.

But everything changed on National Friendship Day. On that day, at school, everyone was having a great time and had to make three presents to give to their three best friends.

However, Judi was the only one who did not receive a present! She felt terrible, and spent hours crying. So much effort was made to get many friends, and in the end no one saw her as their best friend! Everyone came and tried to **console** her for a while. But each one only stayed for a short time before leaving. This was exactly what Judi had done so many times to others.

When she got home that night, she asked her mother how she could find true friends. "Judi, my dear," answered her mother, "you cannot buy friends with a smile or a few good words. If you really want true friends, you will have to give them real time and **affection**. For a true friend you must always be available, in good and bad times."

Key Words

affection: passion-emotion

effort: hard work

console: comfort

individual: single

Grammar

The Past Simple Tense

- Form: Subject + Verb 2 + Complement

We use the past simple tense to describe an action that started and ended in the past.

eg. 1- I visited a friend in Homs yesterday.

2- She was late for school

The past simple of the verb is usually formed by adding (d), or (ed) at the end of the base form of the verb. However, in English there are many irregular verbs that take on a completely different form in the past tense.

Regular		Irregular	
Infinitive	Past	Infinitive	Past
enjoy	enjoyed	drink	drank
play	played	is/am	was
study	studied	are	were

- The most common time expressions used for the past simple tense are: yesterday a week (month, year) ago, last (month, year, weekend, Monday night), in 1990

- To form a negative sentence in the past simple:

- Use didn't (did not) + the base form of the normal verb.

e.g.- I **didn't** talk to John yesterday

- We add (not) after verb to be (wasn't / weren't)

e.g.- They **weren't** satisfied with the answer

- To form a question:

- When we have a normal verb, we use **Did** + subject + verb 1 + rest

e.g. **Did** you **ask** Tina to go out with you?

e.g. Why **did** the employees **stay** late last night?

- When we have verb to be, we use was/were + subject + rest

e.g. **Was** Rob absent yesterday?

A- Complete the following sentences using the Past Simple of the verbs in brackets.

- 1- My teacher (teach) me about the planets, the moon and the stars in the fourth grade.
- 2- Last night I.....(play) my guitar loudly, so the neighbors complained.
- 3- I (not feel) scared when the electricity went out during the thunderstorm last night.
- 4-John (want) to go to the museum?
- 5- The sky was cloudy yesterday, but it(not rain).
- 6- Suzan(be) busy cleaning the whole house last Saturday.

B- Put the following verbs in the simple past tense then fill in the spaces.

go – not receive – visit – get – be not - enjoy

- 1- I..... Cairo last year.
- 2- They at school yesterday.
- 3- He..... for a walk a month ago.
- 4-she Sally's birthday party?
- 5- I..... any letters last March.
- 6- Whenthey married?

Do you think people spend too much time on the Internet?
Do you think the Internet has become essential nowadays?

Stop Wilfing

Wilfing on the internet is becoming a real problem. It describes what happens when you spend a lot of time on the internet without doing anything in particular. A new report has shown how computer users waste up to two days a month on the internet. Most of the people who are interviewed said they were **distracted** all or most of the time when they worked or studied online. The study shows that the Internet can be bad for relationships because most teenagers who spend too much time in front of their computers keep away from communicating with the family members. This situation causes **arguments**, most of the time, with their parents. On the other hand, some teenagers like to use the Internet only for a short time after finishing their studies. Although the Internet has made the world better, but you have to be **aware** of the bad effects of the internet on people. Therefore, it's better to set a time limit for being on the Internet playing video games or even surfing for some information. **Arranging** our time makes us successful individuals in life. Luckily, there is a simple answer to this problem: "Get off the computer and get on with your life".

Reading

Read the text and do the task below.

The Latest Innovation

According to the World Health Organization, air pollution causes the greatest environmental **threat** to our health. Therefore, **innovators** began to think of new technological innovations which could help in protecting the environment by reducing air pollution.

One of these innovator is the Dutch innovator, Daan Roosegaarde who has developed large towers that remove pollution **emitted** into the air. So we can say that the latest technological invention is a tower that cleans outdoor air. The Tower is a seven-meter high **structure** that removes bacteria from dust **particles** in the air.

Roosegaarde's tower cleans 30,000 cubic meters of air per hour. Air from the area surrounding the tower is **drawn** into the structure. All **airborne** particles receive an electric charge. The charged particles are caught on large collector plates that have an opposite electric charge. The clean air is then blown from the tower back into the environment.

Basically, it's like when you have a plastic balloon, and you **polish** it with your hand "it becomes **static**, electrically charged, and it attracts your hair," explains Roosegaarde.

Hospitals

Hospitals are often large and clean buildings where people who are sick or injured are given medical treatment and care. Nowadays, hospitals are more advanced in medical technology. Technological equipment helps doctors in their work.

Not only patients come to hospitals to be treated, but also those who want to check if they are in good health. When we think of hospitals, perhaps we only think of doctors and nurses there, but there are other people who work there too. They all do important jobs such as secretaries, cooks and engineers.

Some people go to hospital only for one day, but other people need to stay there for several days or a longer time. If you go to hospital, sometimes you have to wait for a long time before you see the doctor. Doctors have a lot of work to do. If you are in hospital for a long time, you need to take clothes and some books to read. Often your friends and family bring you cards and flowers when they visit you. Hospitals are full of people who want to help you, but most of us still want to go home quickly.

A - Answer the following questions:

- 1- How are hospitals different today?
- 2- Who works in hospitals?

Cool Green Solutions For Our Warm Planet

Being eco-friendly means living in a way that is not harmful to the environment. This way of life is becoming increasingly important, as we need to protect our planet from man-made damage. There are various ways that an individual can make **sustainable** changes in order to lessen the negative effect on our daily lives.

It is possible to be eco-friendly in different areas of our lives. It can start from a small change like using a recyclable water bottle in your daily life, to a bigger one, such as installing solar panels to make the switch to renewable energy for your home. Here are two pieces of equipment that can help.

A- Green Machine:

Washing machines **require** a lot of energy, as well as huge amounts of water. Now a new company has developed the world's first "almost **waterless**" washing machine. This machine uses 90% less water and 40% less electricity than **normal** washing and drying machines. If people use this machine, the world will change and CO2 will fall by 28 million tons a year.

B- Magnetic Fridge:

Refrigerators and air conditioners (AC) eat up more electricity than any other machine. Now there is a new cooling method that works using a system of magnet. This system is used in new fridges which can **reduce** the use of electrical power up to 40%.

Key Words

- sustainable:** the use of energy in a way that does not harm the nature
- require:** need
- normal:** usual or ordinary
- magnetic:** having the force to pull things
- reduce:** make less
- waterless:** with no water

A- Rewrite the following sentences with the correct information from the text.

The Brave Little Tortoise

Once upon a time, a tortoise was on a ship but the ship sank. The tortoise reached a desert land surrounded by water on all sides except for one that led up to a high, steep mountain. The tortoise was **endangered** of starving to death and decided to climb to the top of the mountain. When he got to the snow-covered **summit** he was freezing cold yet he **managed** to make out a small **pathway** leading down the other side of the mountain. But the path was guarded by a big monster that wouldn't stop shouting "Uuhuuuhuh!"

The tortoise was **terrified** and tried to hide his head inside his shell. But, looking around him, he saw many other animals lying frozen to death with looks of horror on their faces. The tortoise **called upon** his courage and moved down towards the monster. The closer he got, the more the monster changed its shape. When he was almost upon it, the tortoise realised that it was only a great pile of rocks, which shaped just like a monster. While the "Uuhuuuhuh" was just the sound of the wind blowing through a small **cave**.

The Story of The Burger

Once upon a time there was a burger who had many lives. Each day she would wake up on the burger table, and patiently wait her turn to be cooked by the chefs, then served to the **customers**. When they start eating, she would do everything possible to make herself really delicious, and with the customer's final bite she would feel simply fallen asleep. The next day the burger will start again.

One day, while she was waiting for her turn at the cooking range, she heard one boy calling her "junk food". And this made her angry!

From then on she realised that many people used that **term** about her and her sisters. After listening closely to many radio or television programs about junk or healthy food, she arrived at a horrible ending: it was true, she was "junk food".

Now she understood why most of her favourite customers were much fatter than they had been when she first met them. The burger felt terrible; all this was her fault! So she tried to find some solutions; some way they could change that terrible name. That was the plan. The burger **convinced** all her sisters not to have any taste whenever they were with a customer that visited too often, and to be even more tasty with the customer who came only rarely. In this way they began to see fewer people who eat unhealthy food in the restaurant.

The Lighthouse Of Alexandria

The **Lighthouse** of Alexandria was known as one of the Seven Wonders of the Ancient World. It is located in the city of Alexandria on the north coast of Egypt. It was considered as the tallest building in the world with 300 feet until the Eiffel Tower was built in 1889. The lighthouse of Alexandria looked a giant. Twelve years were needed for the completion of its whole building and a total of 800 **talents** of silver were used.

The lighthouse was built from large blocks of light-colored stone. The tower was made of three sections. The first was a lower square section, the middle **octagonal** section, and, at the top, a circular section. It was built by the architect Sostratus of Cnidus in the time of King Ptolemy I.

The **construction** of the lighthouse was necessary at that time. It was considered as a guide. It guided thousands of ships safely into the **harbor**.

The Lighthouse was used, like the sun by day and fire by night. It could be seen from 100 miles. The lighthouse stood until 1323 AD when a powerful earthquake destroyed it. Then came Sultan Qayetbay and **fortified** the place as a part of his coastal defenses and built his castle on its site.

Nature Lungs

Planting trees is the ideal way to support nature. It helps other living species, including people. Trees give us oxygen, food, shelter, and they are natural air filters and noise safeguards. When trees are planted, the diversity of that zone is improved. It advances the development of species and saves them from extinction. Planting trees like wise helps birds, squirrels, and different species, giving them food and living arrangement. The least we can do is to plant a large number of trees to provide nature with what we have taken from it.

Some students are volunteering for tree plantation today. It is, after all, the fastest method to make the earth greener. Tree plantation is a sign that will make the planet a great spot to live for the coming ages.

Most boys of his age can work only on simple math problems, while Wu the 12-year old can solve complex ones. Wu began solving math problems just after his first birthday. The child is a genius at mathematics. He is now studying algebra at university.

Module 1 Unit 2

1. A friend's eye is a good mirror.
2. A man is known by his friends.
3. Birds of a feather flock together.
4. False friends are worse than open enemies.
5. Friendship is like money, easier made than kept.
6. Friendship is love with understanding.
7. A friend at hand is better than a relative at a distance.
8. The rich knows not who is his friend.

Module 2 Unit 3

I'm Jude. I started cooking at the age of eight when I made my first dish. I have always loved food and I liked to watch my mom cooking. I always found cooking exciting and I can't quite explain why. Usually, I use the kitchen more than my mom does. When I'm at somebody's house I cook there or make coffee. When I feel like baking cupcakes or any kind of sweets, I go to my aunt's house. I like to cook with her. She is a great cook.

Module 2 Unit 4

An interview:

A. Presenter: Can you talk about a scary experience you had?

B. Helen: mmmmmm. I once went white water rafting in Zimbabwe, and suddenly I fell off. I thought it was the end but luckily my friends pulled me out. I felt so scared.

A. What about you Martin?

B. Actually, I haven't experienced a similar accident before. On the other hand, the most thrilling experience for me was when I participated in (The Voice) a couple of years ago and performed in front of a hundred people. This was scary but I won third place.

Module 3 Unit 5

Listen to John talking to Tom and Helen

John: I check my phone every two hours. In my opinion, addiction to phones does not only prevent us from studying but also causes health problems and makes people lazy. **What do you think Tom?**

Tom: I check my phone every 2 or 3 hours. The phone is a real addiction for young people mostly. In my opinion, phones could be very useful for many things, but sometimes it's better to turn them off while studying or working. What about you Helen?

Helen: I use my phone like 5 or 6 times a day. I think it's better to use our mobile phones when necessary.

Module 3 Unit 6

Peter: My laptop is so slow.

Steve: Buy a new one.

Peter: I would if I had enough money.

Steve: Why is it so slow?

Peter: That's a good question. I don't know exactly what's the matter. It needs checking and fixing.

Steve: Did you take it to a computer shop?

Peter: Yes, but they said it would cost me a lot of money.

Steve: Well, I guess you have to live with it.

Peter: Sometimes I want to throw it out of the window.

Maya: No, it was at my birthday party.

Dani: Oh, I see! Where was it then Maya?

Maya: It was a DVD. The film was about some rabbits Dani.

Dani: Oh. I know the one. They have to find a new home. Did they go to live with the animals in a zoo?

Maya: No, they didn't do that!

Dani: Oh. Well, did they go to a farm then Maya?

Maya: No. They went to live in a big forest.

Dani: What did you have for your lunch Maya? Sandwiches?

Maya: No, we had burgers.

Dani: What did you do after lunch? Did you have the birthday cake Maya?

Maya: No, we played ball games in my garden.

Dani: Oh! It's better to play quiet games after a big lunch.

Maya: Not on my birthday Dani!

Dani: What did your friends give you for your birthday Maya?

Maya: Oh, a lot of things. Some of them gave me CDs.

Dani: Did they give you any new books?

Maya: No. But my best friend gave me something very good.

Dani: What is it?

Maya: It's a little kitten!

Dani: Wow!

Module 4 Unit 7

Council: Hello, Greenwood [City Hall](#) Local Services. How can I help you?

Salma: Hi, yes I have just moved to Malki Street and need to ask some questions about recycling.

Council: OK. Sure.

Salma: Can I recycle my rubbish?

Council: Yes, of course.

Salma: How many bins will I have?

Council: You will have 3 bins. One bin for food waste, one black box for recycling paper and glass and one green bin for plastics and tins.

Salma: How often will the bin men collect my rubbish?

Council: Every week.

Salma: And what day do I put my rubbish out?

Council: On a Wednesday.

Salma: Ok, and what time do I need to put my bins out?

Council: At 7.00 in the morning.

Salma: Where is my local recycling centre?

Council: It's 2 miles away, near the supermarket on Rawda Street.

Salma: OK brilliant. Thanks for your help.

Council: No problem.

Salma: Bye.

Council: Bye.

Module 4 Unit 8

Interviewer: Today, I'm interviewing a teenager Sam to tell us how she thinks people can help save the environment. So, Sam, what suggestions do you have?

Sam: we can be environment friendly by saving water.

Interviewer: Well, how can we do that?

Sam: By not using too much water when we wash dishes, take a bath, and when we water the plants outside.

Interviewer: Oh, I think I can do that. What else?

Sam: When drinking or eating outside, we should keep the garbage until we find a trash can to put it in because throwing rubbish everywhere makes our planet dirty. Do you like seeing trash all over the ground?

Interviewer: No, I don't. Do you have any final ideas about what we should do?

Sam: Yes. We shouldn't waste paper because trees are being cut down to make the paper. By recycling paper, we save the forests where animals live.

Interviewer: So, how can children recycle paper, I mean, every day?

Sam: Well, they can save the newspapers so that they could make things out of them instead of just throwing them away. My friends in our neighborhood and I collect newspapers once a month to take them to a recycling center.

Interviewer: That's great. Well thanks Sam for your ideas.

Module 5 Unit 9

Sami is a footballer. He usually practices after school and at the weekend. His coach says he's going to be a champion one day. His parents support him and they always attend his matches . But today Sami is ill. He is not playing the match with his team . He is sitting with his father watching his friends playing . He knows that the new player doesn't practice very often. He is watching nervously.

Module 5 Unit 10

Waiter: Welcome sir. Welcome Madam.

Bernard: Hello. We haven't booked a table. Can you fit us in please?

Waiter: Our pleasure sir. How many people?

Bernard: Two.

Waiter: This table fits.

Bernard: Thank you. Could we see the menu, please?

Waiter: Of course. My pleasure sir.

Bernard: Are there dishes in the menu suitable for vegetarians?

Waiter: Yes sir.

Bernard: I'm a vegetarian but my wife is not.

Bernard: Could I have a big bowl of salad, a dish of fried potatoes, a dish of beans with olive oil and a glass of orange juice?

Helen: I prefer chicken with a dish of salad and a glass of lemon juice.

Waiter: Okay sir. Thirty minutes and your order will be ready.

Helen: Thank you. But could we have a bottle of water for now, please?

Waiter: Of course. My pleasure Madam.

Helen: That was delicious! Thank you.

Bernard: Everything was great. Could we have the bill, please?

Module 6 Unit 11

When you travel abroad you can learn about cultural traditions and eating habits. Among one of the joys of travelling abroad is the different types of cuisines. For example, it is widely known that Indians, whether living in India or not, traditionally eat with hands. They wash their hands and eat with the right hand only.

Chinese cuisine needs practice because in China people use chopsticks when eating. They hold the first stick like a pencil, and the second stick between the thumb and the ring finger. The middle finger should be in between the two chopsticks.

In Korea, you should respect the elders. Before beginning a meal, make sure the seniors and elders on the table have begun eating first. When receiving food or drink served to you, you should hold your bowl or glass with two hands to be polite.

Module 6 Unit 12

Son: Finally dad, I have got my driving license.

Dad: oh, really. Congratulations.

Son: Thanks dad. Do you still keep your promise to buy me a new car.

Dad: Sure. I still remember what I told you. I'll buy you a new car if you succeed in the driving test, but on the condition that

Son: Oh, Dad you want me to remember your five conditions.

Dad: Of course.

Son: If I exceed the speed, I will cause a lot of damage.

Dad: Right.

Son: If I use my mobile while driving, I may make an accident.

Dad: oh, yes. What else?

Son: If I park in a wrong place, I will pay a fine.

Dad: Good.

Son: If I don't put the seat-belt, I may get hurt.

Dad: Of course. And what about the last condition?

Son: If I cross the traffic lights, you will take back the car.

Dad: I'll be proud of you if you apply my instructions. You deserve the new car

Son: I will. Thanks dad.

Progress Test 2

Young bodies, big minds / Pedal-powered washing machine

Necessity is the mother of all inventions, and this gadget certainly embodies that phrase. This is particularly relevant for our teenage inventor. Remya Jose, a 14-year-old who comes from India, was asked to do the laundry when her mother became ill.

Clearly, Remya was less than impressed with the amount of time and energy needed to hand wash clothes in the nearby river where they usually do the washing. She took some recycled bicycle parts to create an appliance that saves time, energy and keeps you fit, all at the same time.

This device will clearly have countless applications in areas where there is a lacking electricity, or those who wish to save time on exercising, or whose time is too busy to do the domestic jobs
